1972

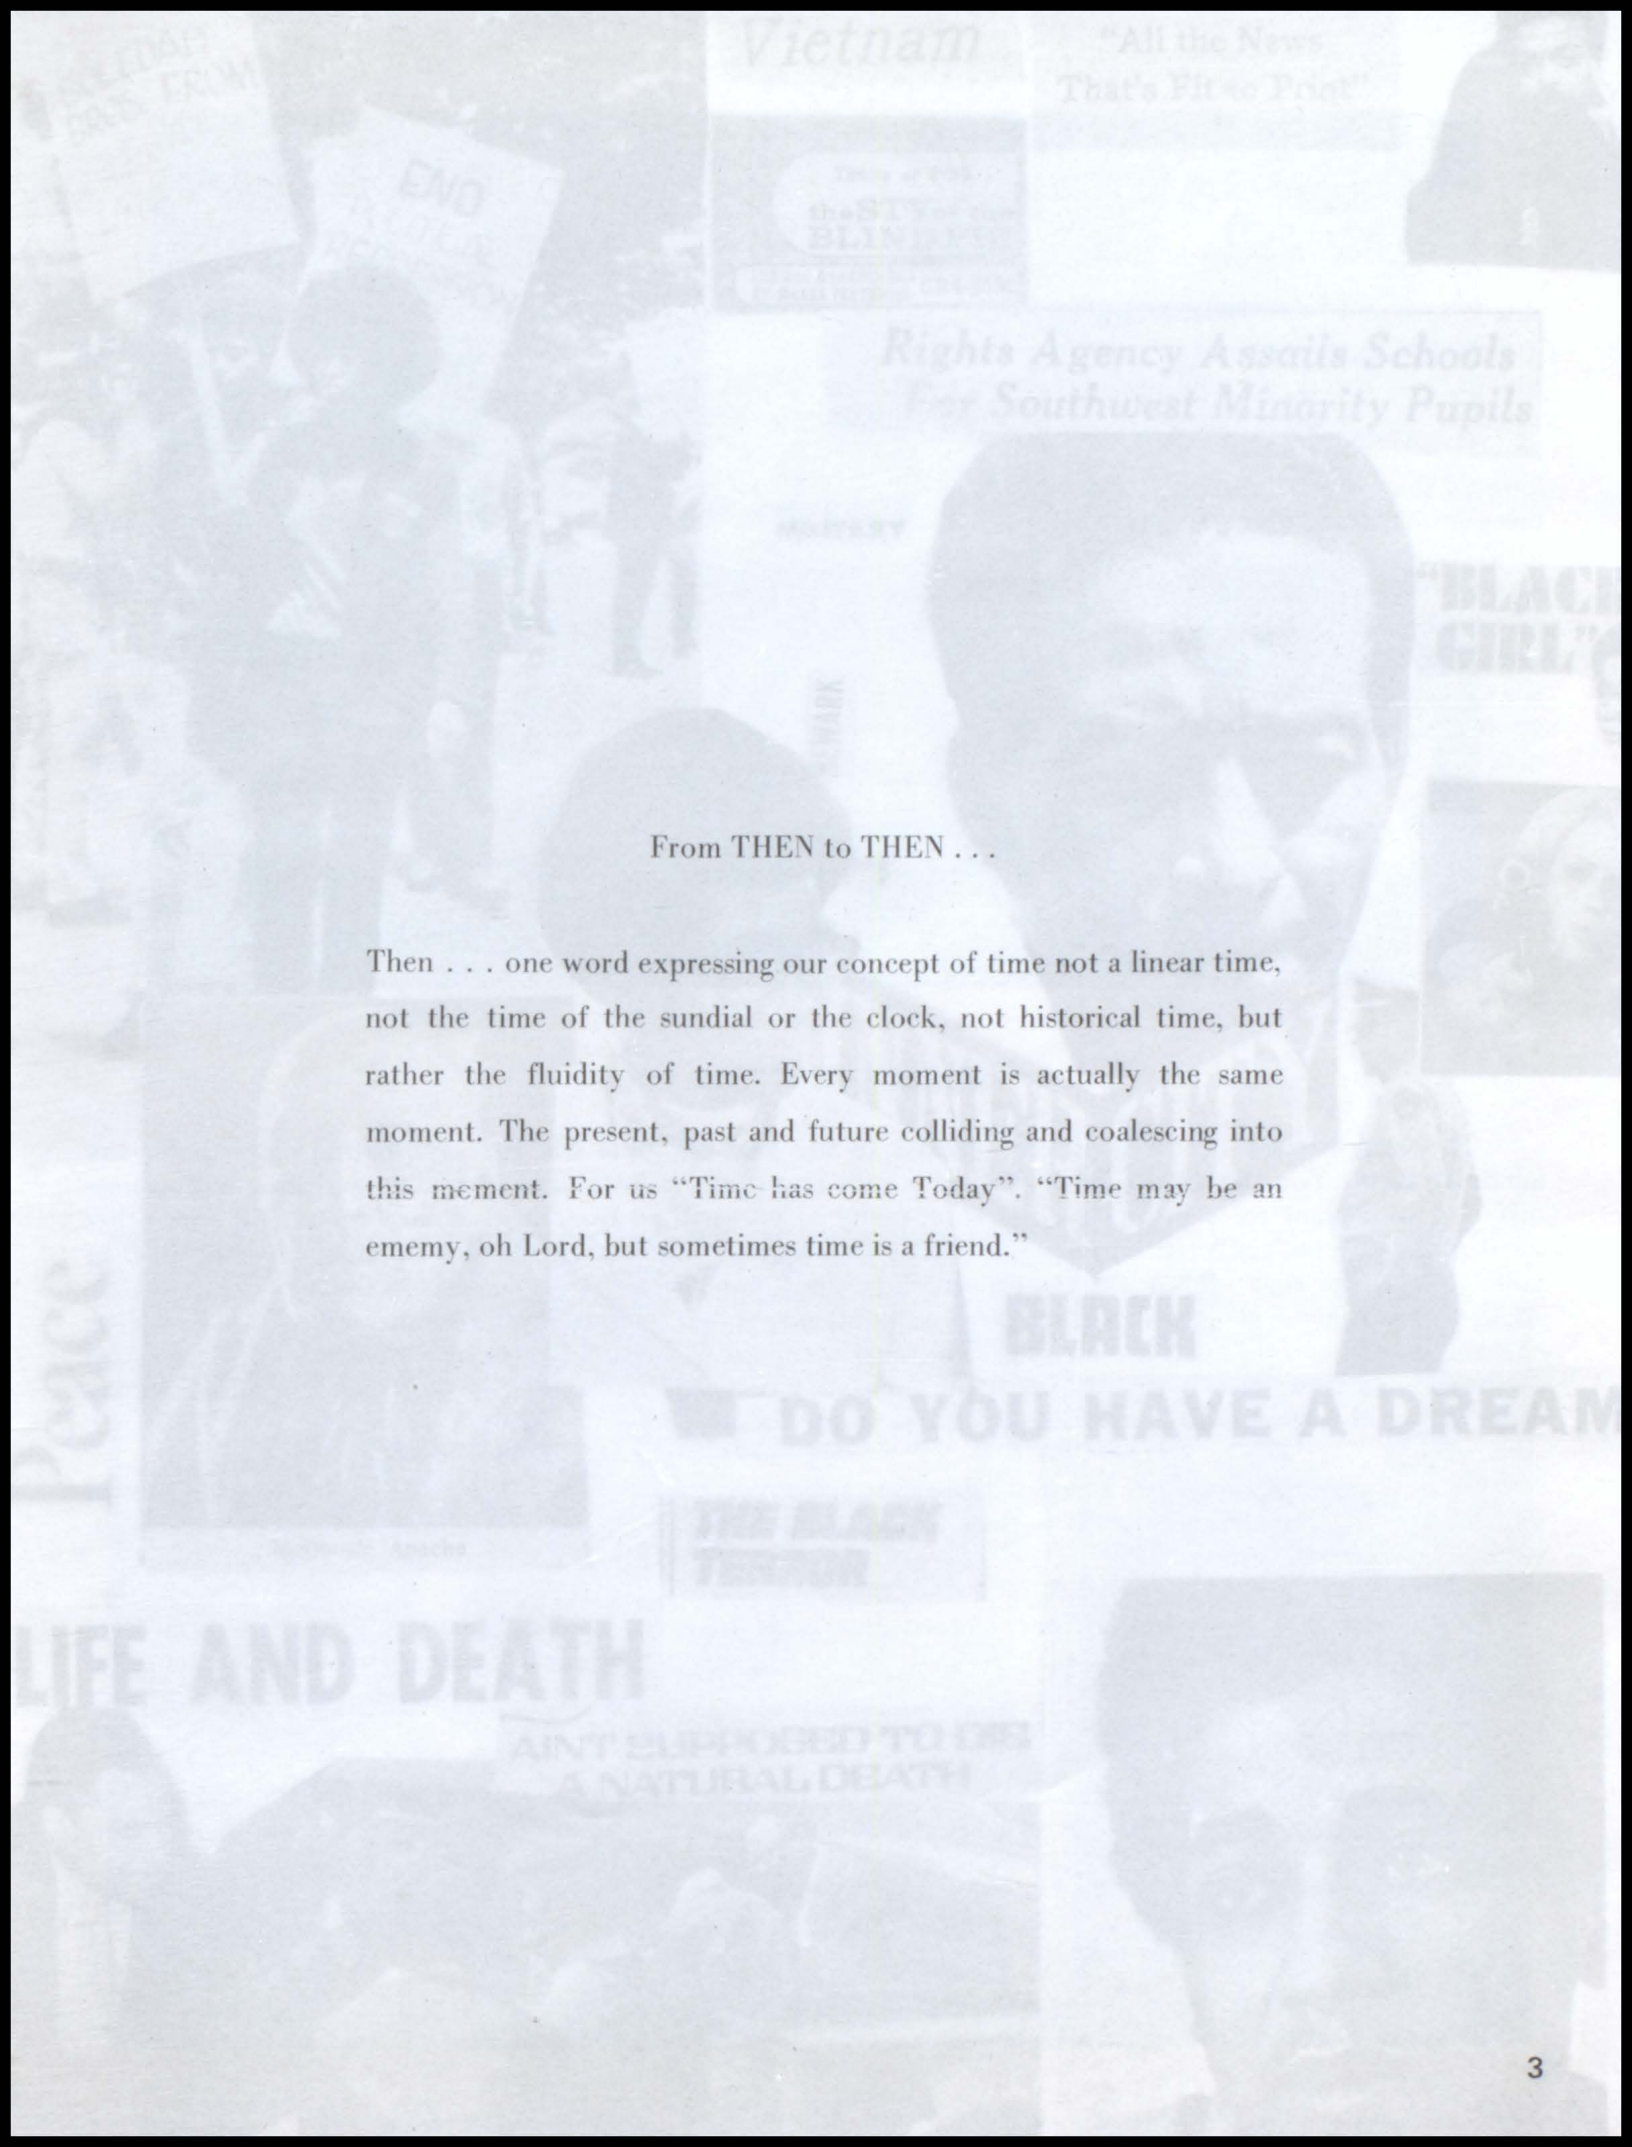

# YACONNO 1972

With sincere love and gratitude, we the members of the Class of June, Nineteen Hundred and Seventy Two, are honored to dedicate this volume of the "Legend" to our parents, who have shown continued support in our quest for education that is not only high in quality, but relevant to Black students. And to our principal, Mr. James Barrett Jr., who with his expertise in administration has helped to bring about the rebirth of our school.

From THEN to THEN . . .

Then . . . one word expressing our concept of time not a linear time, not the time of the sundial or the clock, not historical time, but rather the fluidity of time. Every moment is actually the same moment. The present, past and future colliding and coalescing into this mement. For us "Time has come Today". "Time may be an enemy, oh Lord, but sometimes time is a friend."

#### MESSAGE TO 1972 CLASS

The senior class of 1972 is very special to me because it is the first graduating class under my administration. You, as seniors, have reached a very important milestone in your lives and now will assume different important roles in society. For sure, many of you will go to college. Some of you will seek other institutions to enhance your educational needs; while still others will go directly to work. No matter what your goal is after high school, the important thing is that you forever strive to develop the best in yourselves. At the same time, it is most important that you never ever forget the unwritten responsibility you have to the community from which you are coming. You must recognize clearly that your community is the Black Pearl of the City of Newark. By the very nature of our community we should produce more black leaders than any other area in the city; to do less would be a tragic failure on our part.

During my short time here I have tried hard to make you realize the great responsibility you have toward yourselves and your community. It is clear to me that the success or failure of this city, for the most part, rests in your hands.

Now with the opportunity for eighteen year olds to vote, you will have more of an immediate opportunity to become an effective, responsible leader of your community and hence of your city, state, and country. To be a good leader you first must maintain pride in yourself and your community. Only if you are prepared to meet the challenge of tomorrow will you be able to help your community and your fellow man.

We are a race of people on the rise, as evidenced by the recent advances we have made. Even within the span of your lifetime we have seen significant changes take place which serve to uplift the life style of our people.

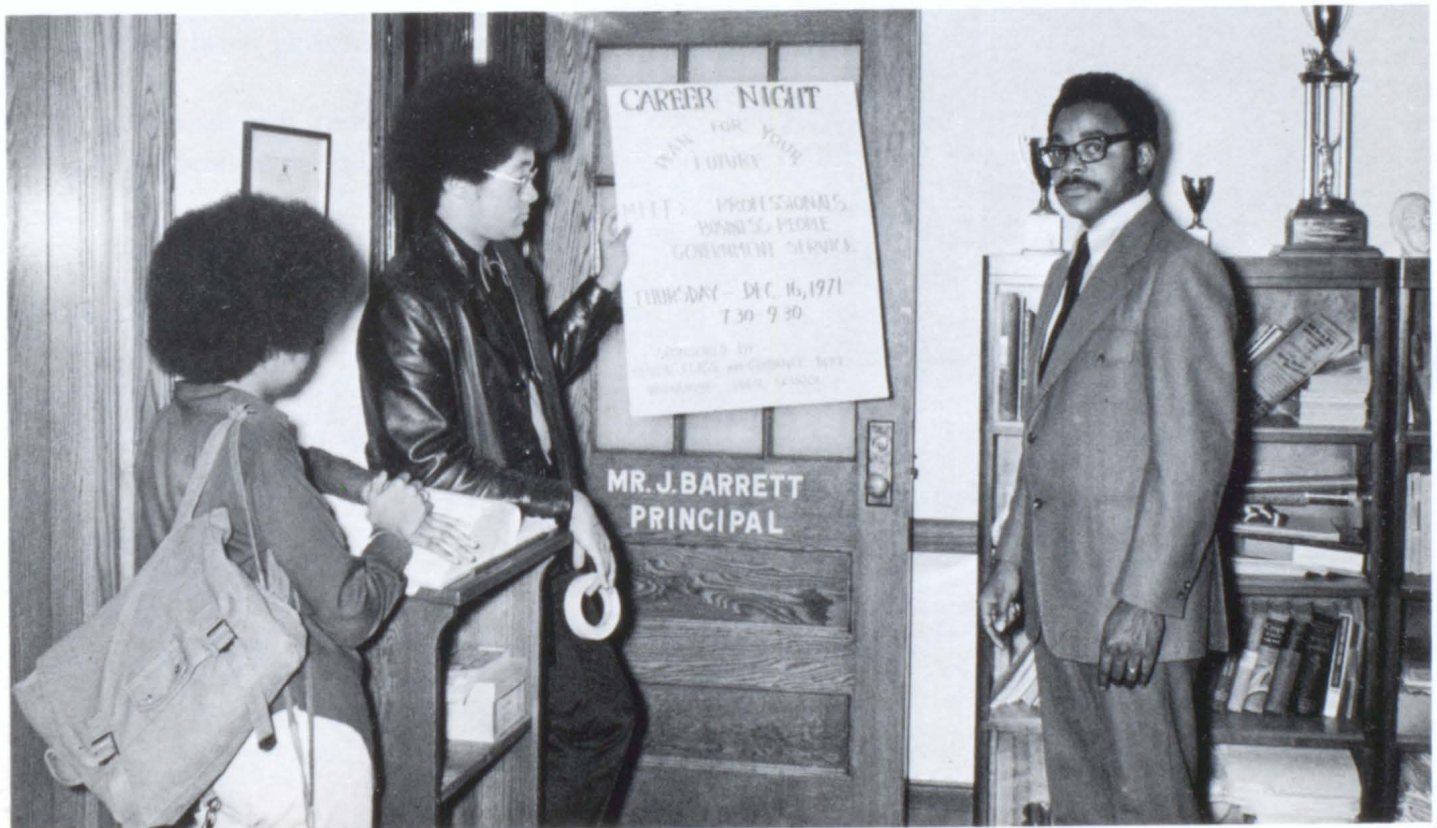

It is important for you to understand that protest and dissension for their own sake serve no purpose and in the final analysis do not benefit us as a people. Protest and dissent can only benefit us when we employ them as a means to achieve worthwhile goals. Moreover, as I see it, the true path to the fulfillment of our quest for dignity and selfhood is in education. Herein lies the success of any people on the rise.

I do not envy you as you move from this level to the next. Experience tells me that you will be even more exposed to a world of many ills; a world of unsolved problems. But remember one important thing and that is that there is no problem that cannot be solved. All that is needed is the will and the resources. With these ingredients any problem can be solved. Is it not true that before the Wright Brothers, the problem of man's flying could not be solved? That before Columbus, the problem of sailing across the ocean could not be solved? That before the Russians, the problem of space travel could not be solved? That before the Americans, the problem of landing a man on the moon could not be solved? Yes, what could not be solved yesterday is being solved today because the will and resources of man with the help of God made it so. And so as you go through your daily lives and as you encounter problems that "cannot be solved" remember what I have said in the text of this message to you.

At this time I wish you all the happiness and success you are capable of enjoying for years to come. I pray to God that you be given the wisdom, understanding, guidance and strength necessary to do your share in making the world a better place for the many generations that will hopefully follow you.

James Barrett, Jr.  
Principal

## CLASS MESSAGE

As we, the graduating Class of 1972, find ourselves at the end of our High School careers, we can now look back and linger over the memories we have created during our years here, at Weequahic High School. However, the past will forever remain in back of us and even though we may look at the past with fond memories, we must also seek a vision for the future.

Many of us will go on to other institutions to seek higher education in order to continue to build for the future. However, for many of us this graduation will mark the end of our formal educational pursuits, and for those of us for whom this is true, the future, that we have been preparing for, is here.

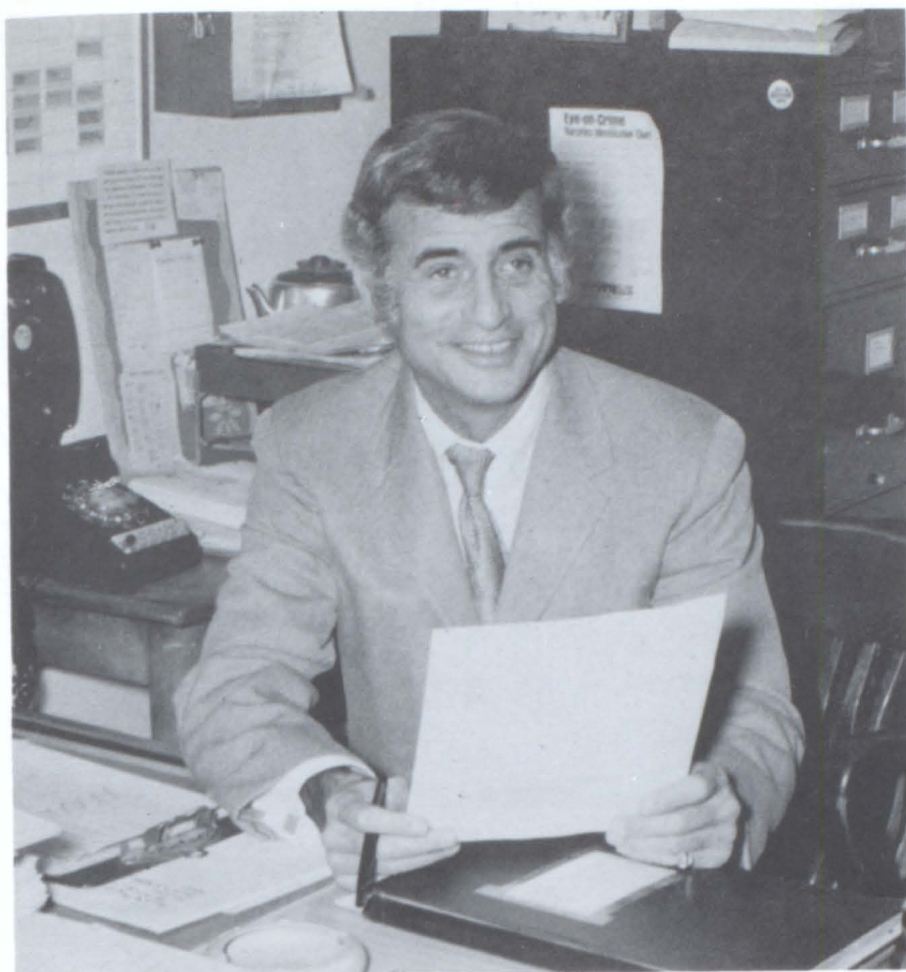

During our years at Weequahic High School, the world has continued to change at an even more rapid pace than ever before. The technological wonders, of which our country is capable, have been demonstrated by such events as the landing of men on the moon. At the same time we are aware that many crucial and critical problems that we face have been left unattended.

Now that nature has been conquered by western man, it seems that the next enemy that man must face is man himself. The uncontrolled expansion of western technology seems to demonstrate that those who are responsible for creating a man made environment, which now appears to threaten all forms of life, are unconcerned about the youth who will have to live in the world that has been created for them. The future that we face is one of collapsing cities, a never ending war in Viet Nam, over population, increasing racial polarization, and of course the ever present threat of nuclear devastation.

If we are not to leave our children the legacy that we complain about, it is absolutely imperative that the vision for the future which we must have will be one that emphasizes man's humanity and not his power for technological overskill.

We Seniors have witnessed the rebirth of Weequahic High School, thus, we can say that when a vision of the future which emphasizes man's humanity and his potential for community involvement, as opposed to his individual competitiveness; becomes a reality, a spiritual rebirth is the result. This spiritual rebirth is, to a large degree, the result of the efforts made by our Principal, Mr. James Barrett Jr., who has demonstrated to us that he has understanding, faith, and love for his black students. We are grateful for his presence and guidance during our final year at Weequahic High School.

Leo Pearl  
Vice Principal

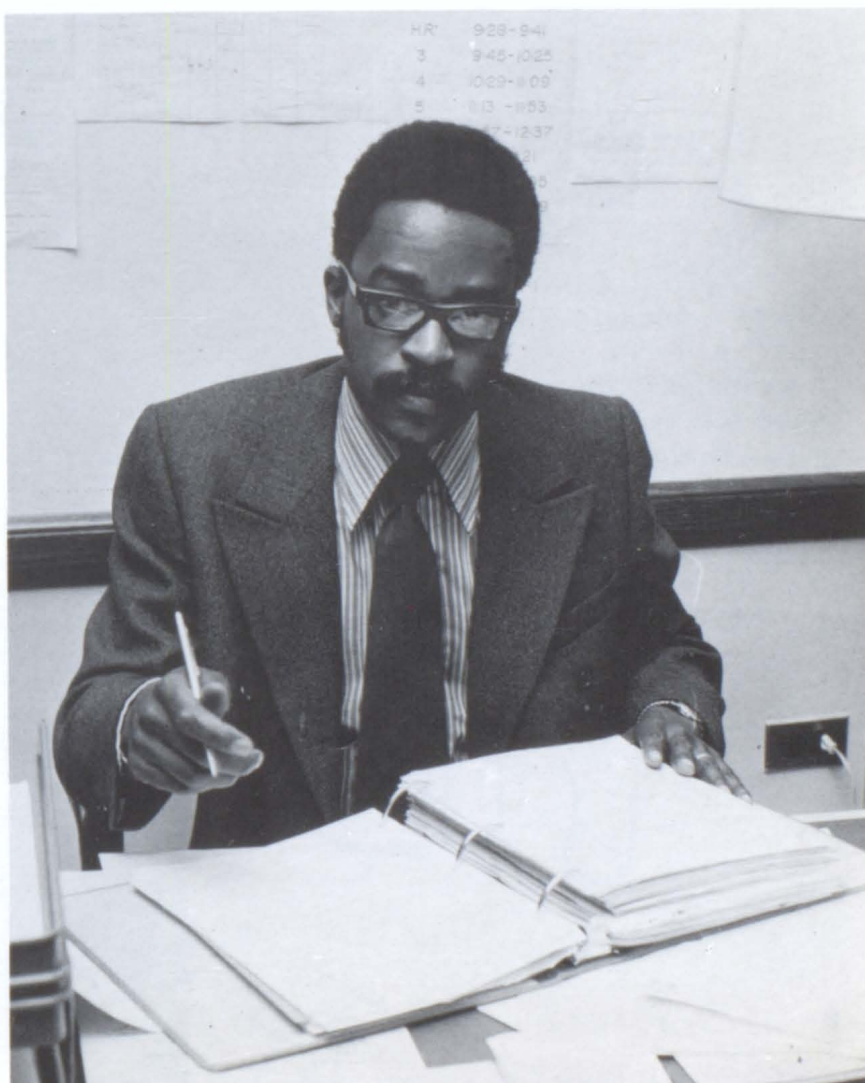

The congratulations and wish for future happiness and success for the Class of '72 is to the point and sincere . . . much like Mr. Pearl.

"When preparation meets opportunity, success is sure to follow." Be ready!

Leo Pearl

Bennie Lee  
Vice Principal

Mr. Lee, is our most recent addition to Weequahic's line of V.P.'s, and would like to extend warm congratulations to his first graduating class here.

Milton Kappstatter  
Vice Principal

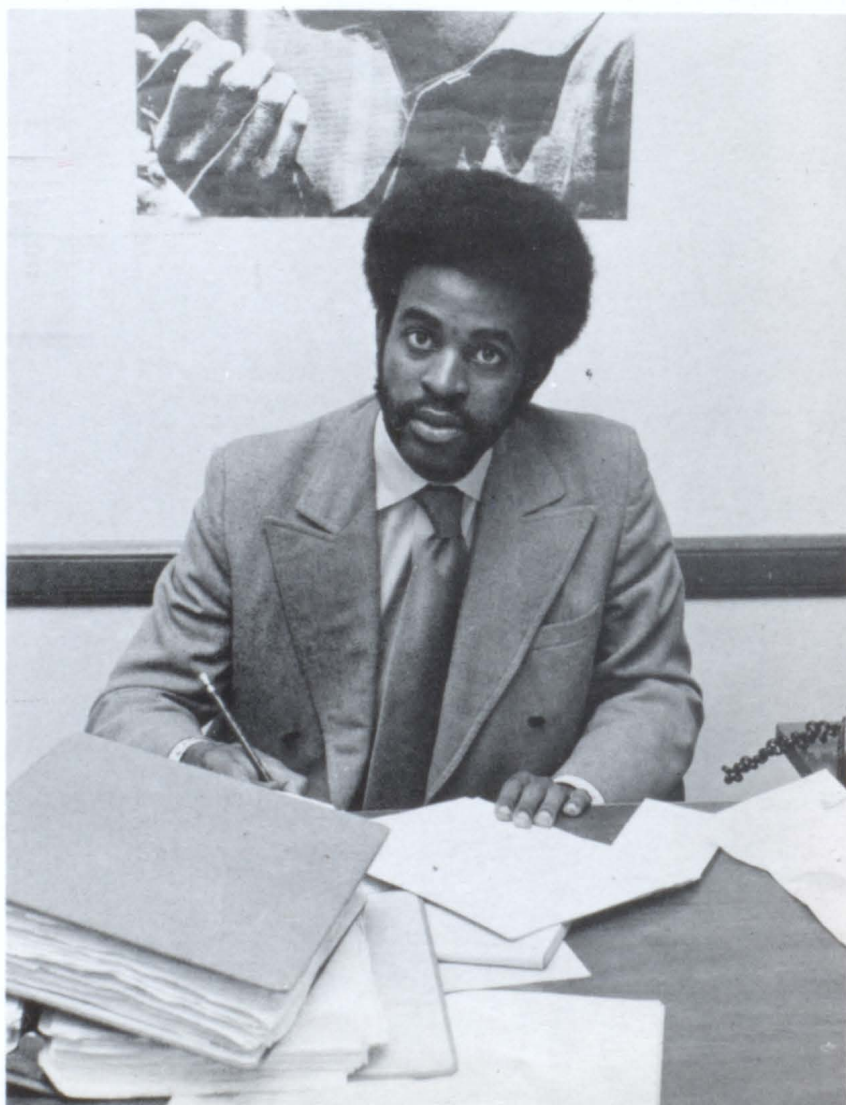

Mr. "K" is probably our least "Public" Administrator, but we certainly know he's there. Best Wishes for all the upcoming years, to the graduating class of '72.

3

Arthur Coles  
Administrative Assistant

A realization of the self and awareness of the social role each of us is to take to benefit ourselves as well as others in life, are a few of the good wishes Mr. Coles includes along with his congratulations to the graduating class.

### "COOL CLYDE'S – LAST RAP"

On behalf of the "together" 71-72 CALUMET staff, and one of the nicest guys ever to be at Weequahic (Clyde) it is with great pleasure that he writes his last gossip column for the jamming seniors of '72.

This year saw Waldo Winchester leave the scene to make way for the personality of TODAY.

"Cool Clyde" dedicates this final piece to a successful future for this year's grads.

To Helen Smith & Frank Hayes – Forever and Always? How about that??

To Freddie B. – Miss Right will soon come along and just blow your mind!!

From Gail Southerland to Bobby – We truly belong together, Baby, for a lifetime.

THIS IS A WOMAN'S WORLD BUT THEY ONLY LET THE MEN LIVE HERE BECAUSE THEY CANNOT SURVIVE WITHOUT THEM.

Donald Jones – no one can ever take your place in the O.B.A. office, TOO much work involved!

Pat. B. – although in sports you're with a loser, you'll always be a winner in the eyes of the beholder.

Jenny J. – Never change.

To Diann – Take your time but make up your mind and baby, be for real.

To Freddie and Poley – What happened to the wedding? Don't keep us waiting.

To Teresa Banks – At all times it is nice to have friends – Like you.

Personal opinion to Monte T. – You're out of sight and sure enough together.

To all no good young men not worth anyone's while and jiving is your style

Stay away, there will be no play and nothing for you to say – Jive time Dudes!!

To our great championship BASKETBALL, FENCING, TRACK TEAMS – Thanks

To the others – agh!

For everyone to take into deep and thoughtful consideration – A true heart that is real once it is broken it may NEVER heal. (This is a deep statement).

The OMEGA PHI OMEGA Fraternity will become the epitome of true BROTHERHOOD.

Linda Reaves – A job well done

RON TWYMAN – KEEP REACHING FOR THE STARS AND YOU'LL NEVER STRIKE OUT.

I would to end by saying that Cool Clyde is an image we hope has given you happiness this year at Weequahic. But real happiness will come to us all, when we can create an image in which all people can come together in unity and peace.

Again I say goodbye, and  
Good Luck
